AI-HED

Artificial Intelligence in Higher Education
Teaching and Learning

Helping you to teach with AI

Starter kits, AI Tools, and other free resources to help higher education institutions, is what you can expect from the AI-HED project.

AI-HED is co-funded by the European Commission, with the aim to adapt the teaching and learning environments at our Higher Education Institutions to the shifts caused by Artificial Intelligence.

We would like to invite you to join us in exploring the impact of AI on teaching and learning, to develop teachers' skills, competences, and attitudes, and to improve our students' ability to use AI.
